ProSpec Technologies Inc.

STANDARD TERMS AND CONDITIONS

- Prices are CDN funds for Canadian pricelists and US funds for US pricelists.
- Prices do not include any applicable sales taxes and are subject to change without notice.
- All prices are FOB shipping point. US pricing includes export costs (duty and brokerage, not freight) to the US destination.
- Freight charges are included to domestic (Canada and the continental US) destinations for orders of 10 or more pumps or kits. Freight method and carrier choice by ProSpec. One complete shipment per order.
- Standard payment terms are 2% - 10 days/NET 30 days on approved credit. A fee of 2% per month may be applied on past due balances and/or credit may be suspended.
- All orders are subject to credit verification at time of receipt and prior to release of shipment.
- Minimum billing is \$25.00 net.
- Any damage, loss or misdirection in transit is the sole responsibility of the transportation company and any subsequent claims are the responsibility of the consignee.
- Return of any goods must be pre-authorized in writing by ProSpec, must be shipped prepaid and may be subject to our standard 20% restocking charge. This standard charge may vary with special product or circumstances.
- Quoted deliveries are a reflection of inventory/production data at time of quotation. Delivery quotes are approximate only and are not guaranteed.
- Any cancelled product or service order may be subject to a cancellation charge. Special product orders are not subject to cancellation.
- All cancellation or order revision requests must be made in writing.

PROSPEC TECHNOLOGIES INC.

CONDITIONS OF WARRANTY

ProSpec Technologies Inc. warrants its products against failures resulting from material/component defects or poor workmanship for a period of 12 months from date of installation, not to exceed 18 months from date of shipment. This warranty applies only to products which are used in accordance with all instructions as to installation, maintenance and operation as outlined in the documentation provided by ProSpec.

Before returning any product or part for warranty consideration, the claimant must first contact the supplier that furnished the product, describe the claim, provide product identification numbers and proof of purchase. Upon receipt of all necessary information, the supplier shall submit the warranty claim to ProSpec for consideration and subsequent instructions.

ProSpec's liability for any damage or loss caused by a product which fails due to defective materials or workmanship, at any time, shall be limited (at ProSpec's option) to the replacement or repair of the defective product, as originally furnished by ProSpec. ProSpec shall not be liable for any loss, damage or expenses directly or indirectly related to the use of its products or from any other cause or for consequential damages (including, without limitation, loss of time, inconvenience, loss of product and loss of production). It is expressly understood that ProSpec is not responsible for damage or injury caused to other products, machinery, buildings, property or persons by reason of the installation and/or use of its products. This warranty does not obligate ProSpec to bear any costs associated with inspection, removal, installation, transportation or any other expenses related to a warranty claim without written authorization from ProSpec.

This warranty will be void if, in the judgment of ProSpec, any product or component has been (a) tampered with, disassembled, repaired or altered by any party other than a ProSpec authorized service representative; and/or (b) subjected to misapplication, misuse, neglect, abuse or accident; and/or (c) used to pump materials for which it was not designed to handle, which may attack or harm the materials used in construction of the product or which may otherwise harm or impair the proper operation of the product.

THIS IS A PROSPEC SOLE WARRANTY AND IN LIEU OF ALL OTHER WARRANTIES, EITHER EXPRESSED OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

WARRANTY PROCEDURE

The following procedure must be followed by all ProSpec authorized warranty repair depots. Failure to comply with proper warranty procedures may void any subsequent warranty claims.

STEP 1

Upon receipt of unit, record all pertinent information in "section A" of the warranty claim form and submit to ProSpec for warranty validation. This step simply determines whether or not the unit is eligible for warranty and in no way implies subsequent warranty coverage of repairs. ProSpec will complete "section B" and return to depot.

STEP 2

If unit is deemed eligible for warranty by ProSpec, proceed to disassemble unit and complete "section C" of warranty claim form. Resubmit to ProSpec for final warranty claim evaluation. ProSpec will complete "section D" and return. Show the current "list price" of each part required and calculate the "allowance" by adding 10% to your normal net price for that part. Determine "labour allowance" involved with the repair from "Labour Allowance Summary" sheet and place this amount where indicated. Also, calculate "new unit allowance" by adding 5% to your normal net price for an identical new unit and place this amount where indicated.

STEP 3

Upon receipt of final review from ProSpec, proceed as indicated. If warranty claim for repair is approved, order parts through normal channels and proceed with repair. ProSpec will reimburse depot for total claim amount. If warranty claim is approved for unit replacement, order new unit through standard channels and ProSpec will reimburse depot for amount of new unit allowance.

STEP 4

Once work is completed or a replacement unit has been issued, return copy of approved warranty claim form along with a copy of signed shipper for proof of customer receipt of goods to ProSpec for claim processing. Failure to submit these documents will void and/or delay claim payments.
